Outcomes & Objectives Achieved:

Today, most countries in the world have a Constitution. While all democratic countries are likely to have a Constitution, it is not necessary that all countries that have a Constitution are democratic. There can be several purposes for drafting a constitution. It is very important to know about the Indian constitution to everyone. Student enjoyed the session very well.

Then Mr. Saugandh Thorat Assistant Prof. ADAMC, Ashta.conduct awareness program regarding creating awareness for voter Enrolment among students. He promote all our Students to vote and make an informed decision during the elections .That was very informative program. At the end of the visit Dr. Hemalata Kore gave vote of thanks. To our Professors. For giving such useful information to our Students.

Outcome of event: In democracy, it is not simply enough to inform voters about election dates. In order to help the electorates take an informed decision, it is quintessential to sensitize them about the importance of participating in the electoral process. Moreover, voters need to be educated about the process and made aware of the political parties, their manifestos, backgrounds of the contesting candidates and armed with several other information to help them cast an 'enlightened' vote.
